## SUMMARY

---

- Enthusiastic and detail-oriented MERN Stack Developer with a Bachelor's degree in Mechanical Engineering. Adept at building responsive web applications using JavaScript, React.js, Node.js, and MongoDB. Proven experience through a hands-on trainee position in a professional development environment. Passionate about delivering high-quality code and collaborating effectively within a team to achieve project goals.

## SKILLS

---

- **Languages:** JavaScript
- **Frameworks:** ReactJS, NodeJS, ExpressJS
- **Tools:** Redux, TailwindCSS, GIT, Github, MongoDB
- **Platforms:** GIT, Firebase.
- **Soft Skills:** Event Management, Writing, Time Management

## EXPERIENCE

---

- **Luminar Technolab**  
• *MERN Developer Trainee* *May 2024 - Present*
  - **Project Collaboration:** Collaborated on various web application projects, gaining hands-on experience in the development of robust and user-friendly applications.
  - **Development:** Built components and user interfaces using React.js and integrated them with RESTful services.
  - **Code Quality and Reviews:** Participated in code reviews and contributed to maintaining high standards of code quality.
  - **Agile-Based Practices:** Delivered features in short iterations with frequent feedback loops, improving code quality and team velocity.

## PROJECTS

---

- **Foodi-App - a client-server model** : A fully functional restaurant site which features include seamless frontend-backend integration , Firebase authentication, JWT token access, admin panel, payment processing, image hosting and online food ordering.  
Tech: Javascript, NodeJS, ReactJs, ExpressJs, MongoDb. Live
- **Gym Website - A Frontend Website:** Developed a responsive and interactive gym website using ReactJs , enhancing user experience with dynamic components and smooth navigation. Implemented state management with React Hooks. Integrated third-party libraries for UI Design including Material-Ui to create a visually appealing and mobile-friendly interface .  
Tech: Javascript, ReactJs. Live
- **Pong game - A two player table tennis-themed video game:** A classic pong game using HTML5, Vanilla JS and CSS for browser-based gameplay. Implemented core game mechanics including ball physics , collision detection , and paddle movement logic . Designed a responsive game interface and integrated keyboard controls for an interactive user experience  
Tech: JavaScript, HTML5 , CSS3. Live
- **Moon-light - A Parallax Scrolling Website:** A responsive parallax scrolling website using vanilla Javascript , HTML5 , CSS3 to create dynamic user interactions and immersive visual stroytelling . Implemented smooth scroll animations and background image transition using transform:translate() for layered depths effects  
Tech: JavaScript, HTML5 , CSS3. Live
- **Media Player - A Custom Media Player interface:** Built a custom media player interface using ReactJs to support audio/video playback . Implemented reusable functional components like for media controls using React Hooks like useState and UseEffect. Integrated Axios APIs for transfer of data  
Tech: ReactJS, JavaScript,. Live

## EDUCATION

---

- **APJ Abdul Kalam Technological University** Kerala, India  
• *Bachelor's in Mechanical Engineering ; CGPA: 6.5* *July 2019 - June 2023*

## ACHIEVEMENTS

---

- **OneRoadMap** Link  
• *Full Stack Developer Certificate*
- **Scalar Academy** Link  
• *JavaScript Course*
